CORRESPONDANCE

The following letter has been received from Mr. and Mrs. Jas. Wright who is taking a trip through B. C. and the United States, and send a description of their trip as follows:

Prince Rupert, B. C.
June 10th, 1915

We have had a fine trip so far, the first of any note was when we came in sight of the Shusop River with its grand timber scenery made up of Jack pine, spruce, poplar and tamarack. The next place was Parkgate on one side of us was mountains on the other side was sand and water this river has plenty of fish mostly trout. Now we come to Brule Lake about 14 miles wide 7 miles long lying between mountains. Next we cross what they call Fiddle Creek and come to the Bull Head range of mountains and then we come to Jasper Park a beautiful place with mountains all around us, next we arrive at the summit of the Yellow Head Pass with some of the most beautiful scenery of mountains and timber. Next we come to Yellow Head Lake a grand body of water, then we come to Grant Brook a town near Bear Lake, now we are in sight of mount Robson. Next we arrive at Fraser Lake at the foot of mount Robson. Then we arrive at the foot of the Canadian Rockies, these mountains are far above the clouds, one can see the clouds floating away below the tops of these mountains, mount Robson is 13,700 feet high. Next we come to the Skeena River it empties in the Fraser Lake; then we come to the river called Swift Water and I must say it is rightly named. I will ring of now for a while.

Tacoma, Wash.
June 28th, 1915

Well I will try and give you a few more details of our trip to this place, I think in my first letter I left off at Swift Water. Well the next stop we made was at Fort George this town has a population of about 2000, quite a busy little place, there must be between 300 people at the depot. Friday morning

—Now we are in what is called the Bulky Canyons here we follow the river for some miles then we come to the mountains again, here we are running through one tunnel after another for about five miles now we commence to scale around the edge of the mountains here is where it makes my hair stand on an end nothing but space below; next we come to the glacier mountains called the seven sisters, the next place of note is at Prince Rupert it is quite a large place with some fine buildings, we arrived here about 6:30 Friday evening and leave here at 10 o'clock Saturday. Prince Rupert is right on the shore of the Big Water, from here down to Seattle, Wash. where we arrived Monday was the best part of our trip, Seattle is a city of 250,000 here we took a jitty and went over the city, some very interesting sights from here we took the Great Northern train to Tacoma and have been visiting with friends here since, this place has about 150,000 population, will leave here Monday for Portland. Well good by for the present will write again.

Respectfully yours,
J. M. and LUCY WRIGHT

LOCAL NEWS

Tom Tate left on Saturday for Grand Prairie where he will work for the summer.

The gasoline launch Thelma will leave the boat landing at 9 o'clock sharp for Rochoon Sands every Sunday morning.

BORN.—To Mr. and Mrs. Fred Dowswell on Monday, June 28, 1915, a son.

W. J. Good was in Red Deer Tuesday and Wednesday on business.

A. Walton return from Calgary on Tuesday where he has been visiting his parents.

Rev. Dougan leaves today (Friday) for Hlmly, where he has been appointed to take charge of that district.

Miss McLean left on Wednesday for Calgary where she will visit with friend.

H. J. Raymer was a business visitor to the Capitol this week. Don't forget the Farning Special on July 13th.

The Dominion Day passed off very quietly in town. No celebration.

Why did not Mirror show more patriotism on the Flag on July 1st. their being only four flags flying. Why did not our Village chamber flag pole have its flag hoisted at this season when our flag is carrying victory before it.

The members of the Mirror Tennis Club are visiting at the Eskine Club (today) Thursday. Those who journeyed to the C. P. R. town were: Messrs. Pym, Holdom, Meyers, Carmichael, Williamson, MacKirdy, Good and Farmer. We hope they give a good account of themselves.

Village Council meeting next Monday evening.

R. L. Pretty leaves on Wednesday to act as examiner of papers in Edmonton. Mrs. Pretty will accompany him to the Capitol. Mr. Pretty expects to take a course before returning in the summer school, which is conducted for the benefit of the teachers.

Miss E. Albrecht, who has been teaching in the Mirror School for the past term, left on Tuesday to spend the holidays at Donalds and Edmonton.

Mrs. K. Bolch and Miss E. Albrecht has been engaged as teachers for the next term.

DO IT NOW

The Department of Agriculture begs to advise the farmers of the province that in view of the large increase in the acreage seeded to grain and the promising crop conditions, there is likely to be a very great demand this season for harvest help and as there are a large number of unemployed workmen in our cities at the present time it would be well to engage such help as may be needed at the earliest possible moment.

Hitherto it has been the policy of the railway companies to induce westward immigration for harvest help, but this year it may be assumed that no such movement will be possible, as conditions in the Eastern provinces are very similar to those in the West with very little or no immigration from Europe. At the present time there are

a certain number of unemployed in Alberta. There are now however, over 100,000 men under arms, and recruiting is progressing steadily. Before harvest therefore, it is safe to conclude that upwards of 50,000 more men will have been with drawn. It is also expected that railway and municipal work will rapidly employ many of the present unemployed, so there is likely to be a scarcity of help for harvest work if arrangements are not made at once to secure the necessary assistance.

A FINE SAMPLE OF BARLEY

On June 10th a fine sample of Barley was left at the Journal Office by G.S. Dunham who has several acres of this grain. The grain was fully headed out on above date and measures 2ft. 6in. high, the sample is known as the "four rowed variety". This is a sure proof that the crops are much advanced from last season, and there no doubt that the Mirror district will have one of the largest and heaviest crops to harvest this year.

Modern Woodmen of America.

MIRROR CAMP No. 14101
Meets every 3rd Saturday in each month in Kadlee's lodge hall. Visiting Neighbors cordially invited. Meeting starts 9 o'clock sharp.
FRANK ALLER, V. C.
GEO. THOMAS, Clerk.

TENNIS TOURNAMENT

The tennis tournament (doubles) which has been in progress for the past week or two, under the auspices of the Mirror Tennis club, ended last Saturday evening in a victory for Dr. Meyer's and G. Pym, the runners up being W. MacKirdy and H. C. Williamson. The vanquished couple put up a game fight, and after winning the first set dropped the second. The third was a see-saw, and finally went to the winners, the fourth and final giving Meyer's and Pym the right to wear the gold buttons, for some time to come. The scores were as follows:—6-4, 6-1, 8-6, and 6-3.

Dr. G. W. Meyer

M. D., C. M.
PHYSICIAN AND SURGEON
Office at house, opposite English Church.

"TAXPAYERS BURDEN"

Adv.

THE OUTLOOK IN CANADA

Handicap For Some Industries—Increased Activity For Others

Truly, it is an ill-wind that blows nobody good. One Continent's "down" is another Continent's "up." The industries of Europe are, generally speaking, at a standstill, and matters will be worse before they can be better.

The whole world is looking to the North American Continent—to Canada and the United States—for much of its provisions, machinery, textiles, boots and shoes, beverages, vehicles, cement, brick, earthenware, fancy goods, fur, glass, garments, paper, soap, tobacco, wood products, and much else. Canada must get ready to meet the demand upon her. We have continued prosperity ahead of us if our manufacturers and merchants rise quickly to take advantage of their opportunity.

Encouraging Manufacturers

Last week was "Made in Winnipeg" week in the Manitoba capital, and manufacturers, retailers and citizens generally co-operated to bring the products of local industries before the public and to urge Winnipeg people to help build up a bigger and better city, by using goods made in their own country.

The object is a most worthy and commendable one, and the response which has been made by the citizens shows that western cities, as well as the older cities of the East, are developing a civic pride and a local patriotism that will be for the good of the community.—From "Grain Growers Guide," May 27, 1914.

"Patriotism and Production"

MILK IN THE COCOANUT BETTER GET AFTER IT

Great Opportunity For "Made-in-Canada" Products—European Products Are Now Shut Out

While the nations of Europe are at war, the people of Canada have a duty to their own land as well as to the Mother Country. While regretting the issue forced on the Stoney Country and giving contingents to England's aid, let us also give all the help we can to ourselves. Canada's own big problem is that of a country which has imported much—and suddenly finds those importations cut off. You will get at the milk in the cocoanut at once by glancing at the following list:

List No. 1

Some of the things we have been importing from Germany, Austria, etc., is the value of \$23,000,000 per annum:

Aniline dyes, baskets, capital, boots, buttons, brooms, brushes, canned goods, chemicals, chinaware, clocks, clothing, collars and cuffs, cotton goods, combs, carriages, colors and dye stuffs, cutlery, dolls, drugs, earthenware, emeralds, electro apparatus, feathers, furs, fringe and tassels, gloves and mitts, glass and glassware, guns, hand, basket, bags, jewelry, knitted goods, leather goods, labels, locomotive tires, machinery, millinery, mineral waters, musical instruments, optical instruments, paints and colors, paper, pencils, perfumes, pianos, pharmaceutical preparations, photo parts, photo key trivets, pipes, purses, ribbons, rubber goods, seats, shoes, lace, silk, haberdashery, silver goods, silverware, soap, spinning stockings and socks, time recorders, tobacco, toilet articles, toys, toys, underwear, wickerware, wooden goods, watches.

List No. 2

Some of the things mentioned in List No. 1 that we now make in Canada in competition with the manufacturers of Continental Europe:

Baskets, boots, buttons, brooms, brushes, canned goods, capital, boots, buttons, brooms, brushes, canned goods, chemicals, chinaware, clocks, clothing, collars and cuffs, cotton goods, combs, carriages, colors and dye stuffs, cutlery, dolls, drugs, earthenware, emeralds, electro apparatus, feathers, furs, fringe and tassels, gloves and mitts, glass and glassware, guns, hand, basket, bags, jewelry, knitted goods, leather goods, labels, locomotive tires, machinery, millinery, mineral waters, musical instruments, optical instruments, paints and colors, paper, pencils, perfumes, pianos, pharmaceutical preparations, photo parts, photo key trivets, pipes, purses, ribbons, rubber goods, seats, shoes, lace, silk, haberdashery, silver goods, silverware, soap, spinning stockings and socks, time recorders, tobacco, toilet articles, toys, toys, underwear, wickerware, wooden goods.

A Great Advantage

The Canadian manufacturers of the articles in List No. 2 have now an advantage greater than any tariff wall. The competition of Continental Europe has been withdrawn and will remain withdrawn until the war is over at least. Let the Canadian manufacturers make the most of this situation. And let the people of Canada rally round our manufacturers and help them make the most of it, for we need them and the things they make as never before.

The immediate result of the European war, in Canada, was a check to business.

The second result will be to stimulate business—if we keep our heads and go after business.

We believe every Canadian will follow this timely advice.

THE JOURNAL \$1.00 A YEAR

WORKMEN CAN HELP TROOPS AT FRONT

Urged to Take Personal Interest in the Manufacture of Equipment For Soldiers

One of Canada's best known public men addressed the employees of a large boot and shoe factory in Montreal at their annual gathering last week as follows:

"This Company has obtained a contract from the Government for 40,000 pairs of boots, to be used by the soldiers going to the front. I am informed by the managing director that a very low bid was put in for these goods, primarily for the purpose of keeping you men and women employed during these trying times. Now, I want to say a word to you about the boot contract. These boots are to be worn by the Canadian soldiers who go to war. A soldier's usefulness depends largely upon his ability to march. He cannot travel unless his feet are sound, and his feet can only be kept in good condition if his boots are right. The management will purchase the best material possible to fill this contract. The superintendents will use the utmost vigilance, but unless everyone of you makes it a personal matter, some of these boots may not be quite right. It is easy for a laster to leave a nail in the sole, which may lame a man who wears a boot. The men who cut the soles might put in some weak heels, in which case the soldiers wearing those boots could not use a spade properly, and it is not happy that on their being able to dig trenches their very lives would depend. When you are putting in the counters, remember that a bad counter means a down-trodden heel and a blistered foot. When you are nailing on the heels remember that to drive the nail six-sixteenths of an inch short might mean that the heel would come off and the wearer be handicapped in marching. You women of the stitching room remember that if the linings are not put in properly or any lancing occurs, it may result in a blister where the foot is chafed. Now, I want everyone of you to remember that these boots are to be worn by our Canadian boys and that a bad boot may mean a lameness and a lame soldier may mean a Canadian taken prisoner or shot. People are giving large sums of money to the boys who go to the war. You can help by seeing that they are properly shod. The honor of the firm and the lives of our brave boys lie in your hands with perfect confidence."

WAR AND WHEAT

Winnipeg Quotations Much Higher Than Those of Minneapolis

The immediate effect of the declaration of war on the wheat market was, as is well known, a stiffening in prices. Roughly speaking the Winnipeg prices for wheat had advanced around six cents per bushel before the war, while recent quotations are in the neighborhood of eight and have been higher. There have been some fluctuations due to uncertainty regarding the conditions of shipment and insurance across the Atlantic, but generally speaking there is little doubt that the war will mean much higher prices to the Western farmer than would have been the case if peace had prevailed. In so far as the increased price will compensate for a partial loss of crop, the West will gain from the day.

An outstanding and interesting feature is the great difference in favor of the Winnipeg market in the price of wheat. On August 10th the Winnipeg price was 14 cents per bushel higher than the Minneapolis price for the same kind of wheat. In fact the difference was so great that Canadian farmers were forced to buy American wheat which could be laid down cheaper at a Canadian mill after the freight and duty had been paid than the Canadian article. Under war conditions, which, however, everyone hopes will not prevail long, it would seem that the Canadian wheat grower would suffer by a removal of the duty. The big American wheat crop has tended to reduce the price of wheat in this continent, and apparently there was a possibility of the Canadian millers buying large quantities of wheat in the United States, some of which might have been used in the one million bag order, comprising Canadian flour, given to Great Britain. The Government has, however, protected the interest of the Canadian wheat growers by requiring the mills to use nothing but Canadian wheat in manufacturing this huge order.

VOTE "NO" ON JULY 21ST

And Save Your Independence And Self-respect

Those who are intoxicated with their own intemperate thoughts, ask you to join them.

When you Vote "NO" on July 21 you administer a well-merited rebuk to intolerance, selfishness, and self-seeking; to bitter, intemperate destructionists.

They would saddle you with an impractical legislation because it means a meagre, empty and brief success for them. They would deceive you with endless abuse on a subject which is too broad for their rutted mentalities to grasp. They refuse to see financial burdens which their actions will bring on the tax-payers of Alberta if the Liquor Act carries.

They are not capable of creating sane Legislation.

Vote "No" on July 21st.

A DISCOVERY—HAVE YOU FOUND IT YET?

CANADIAN DIRECTORY

It is now nearly a quarter of a century since Mr. A. McKim, who established the first independent Advertising Agency in this country, completed the rather ambitious task of publishing the first Directory of Canadian publications. The nine successive editions of this valuable work provide the most complete and detailed record available of the growth of Canadian periodicals.

The 1915 Edition, of which we have just received a copy, shows that the great war has not seriously affected the newspapers of Canada. While the birth-rate of new publications has received a check, and the death-rate of the weak ones has perhaps increased a trifle, most of the leading papers, particularly the dailies, show very healthy increases in circulation. Three metropolitan dailies have reached or passed the hundred thousand mark.

A census of the papers listed and described in the 1915 Directory shows nearly 150 Dailies, 7 tri-Weeklies, 45 semi-Weeklies, over 1065 Weeklies, about 40 bi-Weeklies or semi-Monthlies, 250 Monthlies, 3 bi-Monthlies and 18 Quarterlies—a total of over 1575 publications.

This means approximately one daily to every 10,000 families, and one Weekly to every 1,500 families. From this one would infer that for a comparatively new country, Canada is well-read.

A. McKim Limited report the usual keen demand for the Canadian Newspaper Directory, which sells at \$2.00. Its red-handled, gold-stamped green cover has become a familiar sight on the desks of advertisers, publishers and business everywhere who are interested in Canada.

Card of Thanks
